

IN THE SPECIFICATION

Please cancel the entire specification of the subject U.S. patent application, as filed, including the List of Reference Symbols, as constituted by the verified translation of PCT/EP2004/050522, in favor of the concurrently submitted Substitute Specification. That substitute specification is the result of the entry into the verified translation of a cross-reference to related inventions, of suitable section headings, and of a discussion of a prior art document, as was done in the PCT application; the deletion of the List of Reference Symbols and of references to claims; the correction of minor errors in spelling, grammar and punctuation, and a general revision of the verified translation, to place the substitute specification more in a form in accordance with U.S. practice. These various changes and corrections do not constitute any new matter. A marked-up copy of the verified translation, showing the change made thereto, to arrive at the Substitute Specification, is enclosed.
